CONTENTS

OF VOLUME IV.

No. 7.

ORIGINAL COMMUNICATIONS.

Art.		Page
I.	An account of the Yellow Fever, which prevailed at Thompson's Island, in the year 1824. By Benjamin Ticknor, M. D., U. S. N. (concluded.)	1
II.	Hints on Vaccination. By D. Francis Condie, M. D.	14
III.	On the Effects of the Vapour Bath. By D. Theodore Coxe, M. D.	20
IV.	Observations on Delirium Tremens, or the Disease improperly called Mania a Potu, and produced by the Cessation of the habitual use of Alcohol and other Narcotic Substances. By B. H. Coates, M. D., &c.	27
V.	Morbid Anatomy, considered in its relation to the Practice of Medicine. By Thomas D. Mitchell, M. D., of Frankford, Pennsylvania.	52
VI.	Observations on the Treatment of Curvatures of the Spine. By J. K. Mitchell, M. D., one of the Physicians to the Pennsylvania Hospital, and to the Alms-house Infirmary.	58
VII.	Case of Dislocation at the Sacro-iliac Symphysis. By Thomas Harris, M. D. Surgeon of the U. S. Naval Hospital at Philadelphia.	77
VIII.	Case of Twins, carried to the full period, in which one Fœtus perished at the end probably of the fifth month of Utero-gestation. Communicated by O. H. Taylor, M. D.	81
IX.	Case of Epilepsy, attended with peculiar circumstances, in which the Ligature of the Carotid Artery was resorted to with partial success. Communicated by Frederick E. Becton, M. D., of Tennessee.	83

ANALYTICAL REVIEWS.

X.	An Elementary System of Physiology. By John Bostock, M. D.—Vol. 2d. London, 1826.	87
XI.	Recherches Anatomico-pathologiques sur l'Encéphale et ses Dépendances. Par F. Lallemand, Professeur, &c. A Paris, 1824, 1825. Traité Clinique et Physiologique de l'Encéphalite, ou Inflammation du Cerveau, et de ses Suites. Par M. J. Bouillaud, D. M. Ancien Interne des Hôpitaux, &c. A Paris, 1825.	106

MEDICAL LITERATURE.

XII.	Retrospective Review.—Medicina Gymnastica; or a Treatise concerning the Power of Exercise with respect to the Animal Economy. By Francis Fuller, A. M. London, 1728.	127

ART. PAGE.

BIBLIOGRAPHICAL NOTICES.

XIII. De la Saignée et du Kinkina, dans le Traitement de la Fièvre Jaune. Par Pierre Lefort. Martinique, 1826. - - - 144

XIV. Exposé des divers Procédés, employés jusqu'à ce jour, pour guérir de la Pierre sans avoir Recours à l'Operation de la Taille. Par J. Leroy, (d'Etiolle,) M. D. A Paris, 1825. 148

XV. A Treatise on Verminous Diseases, preceded by the Natural History of Intestinal Worms, and their Origin in the Human Body. By Valerian Lewis Brera. Translated from the Italian, by Messrs. Bartoli and Calvet. Paris, 1824. Translated from the French, by John G. Coffin, M. D. Boston, 1827. 155

XVI. The Philosophy of the Human Voice; embracing its Physiological History; together with a System of Principles, by which Criticism in the Art of Elocution may be rendered intelligible, and Instruction definite and comprehensive. By James Rush, M. D. Philadelphia, 1827. - - - - - - 157

QUARTERLY SUMMARY OF MEDICAL INTELLIGENCE.

I. ANATOMY.—1. Imperfect Intestinal Canal. 2, Placenta. 3, Extra-Uterine Pregnancy. 4, Experiment by M. Mayer. 160

II. PHYSIOLOGY.—5, Digestion. 6, Functions of the Spleen. 7, Pancreatic Juice. 8, Cephalo-spinal Fluid. 9, Absorption. 10, Bellingeri on the Nerves. 11, Gastric Juice. - - 161

III. PATHOLOGY.—12, Physiological Medicine. 13, Paralysis of the Insane. 14, Martinet's Manual of Pathology. 15, Pathology of the Nerves of the Face. 16, Erysipelas. 17, On making Anatomical Preparations in Hot Climates. 18, Yaws and Small Pox, communicated by the same Inoculation. - - - - - - - - - - 166

IV. THERAPEUTICS, MATERIA MEDICA, AND THE PRACTICE OF MEDICINE.—19, Tobacco in Painters' Colic. 20, Treatment of Encephalitis Tremefaciens. 21, Bleeding in the Cold Stage of Intermittent Fever. 22, Speedy Salivation by inhaling Mercurial Vapour. 23, Ascites, cured by the Injection of the Vapour of Wine. 24, Cerebral Inflammations. 25, Balsam Copaiva and Cubebs, administered per anum, in Gonorrhœa. 26, Cancer cured by Compression. 27, Savin in Excessive Uterine discharges. 28, Epistaxis. 29, Salivation cured by Calomel. 30, Sal Ammoniac. 31, Carbonate of Iron in Neuralgic Affections. 32, Insufflation of the lungs in Asthma. 33, Belladonna in Intermittent Fever. 34, Chronic Ulcer of the Stomach. 35, Extract of Balsam Copaiva in Gonorrhœa. 36, Pleurisy and Abscesses after Operations. 37, Acetate of Lead in Cancer. 38, Remittent Broncho-Encephalitis. 39, Case of Abdominal Tumour. 171

V. SURGERY.—40. Ligature of the Arteria Iliaca Communis. 41, Laryngotomy. 42. Angina Œdematosa. 43, Fracture of a Lumbar Vertebra. 44, Fracture of a Cervical Vertebra. 45, Fracture of the Os Femoris. 46, Fungus Hæmatodes. 47, Empyema. 48, Rupture and Re-union of Tendons. 49, Traumatic Tetanus. 50, Incontinence of Urine. 51, Axillary Aneurism. 52, Strangulation of the Intestines. 53, Strangulated Hernia, cured by Leeches. 54, Section of the Uterus. 55, Speculi. 56, Paracentesis Thoracis. 57, Fracture of the Sacrum. 58, Emphysema. 59, Am-

ART. PAGE.
putation in a case of Elephantasis. 60, Foreign Body in the Œsophagus. 61, Excision of Carious Joints, 62, Ununited Fracture, cured by Seton. - - - - - 178
VI. MIDWIFERY.—63, Pregnancy with Ascites. 64, Pregnancy after amputation of the neck of the Uterus. 65, Pregnancy with Aneurism of the Heart. 66, Difficult Labour. 67, Retention of the Placenta. - - - - - - - - - 190
VII. CHEMISTRY.—68, Passages of Substances into the Urine. 192
VIII. MEDICAL JURISPRUDENCE.—69, Rupture of the Duodenum. 70, Medico-legal Report of an Exhumation. - - - - 195
MISCELLANEOUS ARTICLES. - - - - - - - - - - 200

NO. 8.

ORIGINAL COMMUNICATIONS.

ART.
I. Observations on Delirium Tremens, or the Disease improperly called Mania a Potu, and produced by the cessation of the habitual use of Alcohol and other Narcotic Subtances; with an Attempt to set the Treatment of that Affection upon a Stable Basis. By B. H. Coates, M. D., &c. (concluded from p. 52.) - - - - - - - - - - - - 205
II. Remarks on Phlegmasia Dolens. By R. M. Huston, M. D. 237
III. Case of Ruptured Urethra. Communicated by D. Francis Condie, M. D. - - - - - - - - - - - 259
IV. An Introductory Lecture to a Course of Clinical Lectures, in the Pennsylvania Hospital, delivered on the 3rd of December, 1766. By Thomas Bond, M. D., one of the Physicians to the Hospital. - - - - - - - - - - 264
V. Some Observations on Extra-Uterine Pregnancy. By Thomas C. James, M. D., Professor of Midwifery in the University of Pennsylvania. Read before the College of Physicians August 7th, 1827. - - - - - - - - - - 275
VI. Case of a very painful and protracted Nervous Head-ach cured by Arsenic. By Joseph M. Alexander, M. D. of N. C. Communicated in a Letter to John C. Otto, M. D., one of the Physicians to the Pennsylvania Hospital. - - - - 290
VII. Observations on the use of Sulphuric Acid in the cure of Intemperance; with Cases. By W. D. Brincklé, M. D. 293
VIII. Observations on a form of Constipation liable to be mistaken for Diarrhœa. By Joseph Parrish, M. D., one of the Surgeons of the Pennsylvania Hospital. - - - - - 300
IX. A Case of Osteo-Sarcoma, described by Henry Bond, M. D. Philadelphia. - - - - - - - - - - - 305
X. Further Observations on the Case of John Coyle, who was cured of Anchylosis, by a surgical operation. By J. Rhea Barton, M. D. - - - - - - - - - - - 310

ANALYTICAL REVIEWS.

XI. Chimie Organique, appliquée à la Physiologie et à la Médecine, contenant l'analyse des Substances Animales et Végétales;

ART. PAGE.

par Leopold Gmelin; traduit de l'Allemand par I. Ineichen; avec des Notes et Additions sur diverses parties de la Chimie et de la Physiologie, par M. Virey. Paris, 1823. - - 313

XII. Hospital Reports, Vol. IV. Dublin, 1827. - - - 319

XIII. Exposition des Principes de la Nouvelle Doctrine Médicale, avec un Précis des Thèses soutenues sur ses différentes parties; par I. M. A. Goupil, D. M., &c. Instauratio ab imis fundamentis. Bacon. A Paris, 1824. Partie I, Irritation. 350

MEDICAL LITERATURE.

XIV. Discourse upon the Institution of Medical Schools in America; delivered at a public Anniversary Commencement, held in the College of Philadelphia, May 30 and 31, 1765, with a Preface containing, amongst other things, the Author's Apology for attempting to introduce the regular mode of practising Physic in Philadelphia. By John Morgan, M. D., &c. &c. Philadelphia, 1765.

A Vindication of his Public Character in the situation of Director-General of the Military Hospitals and Physician in Chief to the American Army. Boston, 1777.

De Puopoiesi sive Tentamen Medicum Inaugurale de Puris Confectione. Edinburgh, 1763. - - - - - - 362

BIOGRAPHICAL NOTICE.

XV. Biographical Notice of James Hunter Ewing, M. D. By D. Theodore Coxe, M. D. - - - - - - - - - 386

BIBLIOGRAPHICAL NOTICES.

XVI. Annales de la Médecine Physiologique. Par F. I. V. Broussais, Chevalier de la Légion d'Honneur, &c. &c. Tome 9. A Paris, 1826. 391

XVII. The Anatomy of the Brain, with a general view of the Nervous System. By G. Spurzheim, M. D. of the Universities of Vienna and Paris, Licentiate of the Royal College, London. Translated from the unpublished French MS. by R. Willis, with eleven plates, London, 1826. 394

QUARTERLY SUMMARY OF MEDICAL AND SURGICAL INTELLIGENCE.

I. ANATOMY.—1, Structure of the Skin. 2, Appearances of Healthy Mucous Membranes. 3, Nerves of Sense and Nerves of Motion. 4, A Mummy. 5, Mr. Mayer, of Bonn, on Extirpation of the Kidneys. 6, Dr. Eichhorn on Cutaneous Disorders. - - - - - - - - - - 396

II. PHYSIOLOGY.—7, Nævus Maternus. 8, Causes of Death after the ligature or division of the eighth pair of Nerves. 9, Anomalous language. 10, Dr. Ant. Vernière on the Sense of Taste. 11, Muscular Action. 12, Polarity. - - - 399

III. PATHOLOGY.—13, Our remarks on Dr. Broussais. 14, East-Indian Cholera. 15, Black Vomit. 16, Local Læsions in fever. 17, Bronchitis fatal by repletion of the air passages. 18, Homœopathia. 19, Contagion question on Yellow Fever. 403

IV. PRACTICE OF MEDICINE, THERAPEUTICS, AND MATERIA MEDICA.—20, Stramonium in Chronic Rheumatism. 21, Treatment of the Itch. 22, Gastro-Enteritis complicated with

ART. PAGE.

Hepatitis following the use of a Purgative. 23, Action of Belladonna on the Eye. 24, Suppression of articulate speech during several months, in consequence of a slow disorder of the stomach. 25, Doses and effects of Morphia. 26, Catarrho-Rheumatic Ophthalmia. 27, Peritonitis cured by Mercurial frictions. 28, Gangrenous erosion in Children. 29, Action of Opium. 30, Effects of Green Tea. 31, Ointment of Iodine and Calomel. 32, Dysentery. 33, Alcoholic extract of Strychnia. 34, Counter-Stimulant Practice. 35, Metallic tremor observed as an effect of Mercurial treatment. 36, On the use of Blood-letting in the cold stage of the paroxysms of Intermittent Fever. 37, A new Styptic. 38, Bi-Carbonate of Soda in Calculous Disorders. 39, Extract of the Bark of the White Walnut, (Juglans Cinerea). 40, Intermittent Hiccup. - - - - - - - - 412

V. SURGERY.—41, Chlorides of Lime and Soda. 42, Bronchotomy successfully performed in Laryngitis. 43, Glossitis terminating by Suppuration. 44, Glossitis cured by Incisions. 45, Restoration of a lost Nose. 46, Axillary Aneurism. 47, Hernia through a rupture of the rectum. 48, Ophthalmia treated by the sulphate of copper. 49, Nævi Materni. 50, Abscess of the Liver discharging into the Pleura, successfully treated by Paracentesis Thoracis. 51, Scirrhous Testicle in the Groin. 52, A new variety of Aneurism. 53, Amputation at the Carpo-metacarpal Articulation. 54, Treatment of Varicose Veins and Ulcers. 55, Spina-bifida cured. 56, Silkworm gut ligatures. 57, Bronchocele cured by a Seton. 58, Fatal Hæmorrhage from a Varicose Vein. - - - - - - - - - 421

VI. MIDWIFERY.—59, On the management of Collared Cases in Midwifery. 60, Transfusion after Uterine Hæmorrhage. 61, Resuscitation of still-born Children. 62, Laceration of the Perineum. 63, Abortion. - - - - - - - - - 429

VII. CHEMISTRY.—64, Chemical Nature of the Sweat. 65, Gaseous Exhalation from the Skin. 66, Urinary Gravel. 67, Thein, or the peculiar principle contained in Tea. 68, Consumption of the Sulphate of Quinia in France. 69, Cantharides. 70, Henry's Magnesia. 71, Chloride of Soda. 72, Preparations of Opium, proposed by Mr. Carpenter. 73, New Mode of obtaining Meconic Acid. - - - - 436

MISCELLANEOUS ARTICLES. - - - - - - - - - 438
